

Unlocking the Mysteries of Pelvic Masses and Ovarian Cysts

ASK THE EXPERT!

 **March 19th, 2024**  **12:00pm- 1:00pm**

Speaker: Dr. Natalya E. Danilyants
Co-founder of CIGC

Webinar Description

Join us for a compelling one-hour webinar with Dr. Danilyants on March 19th from 12-1 PM, as we delve into the important topic of ovarian cysts and pelvic masses, which are common occurrences affecting countless women worldwide. This session is designed to provide an overview of pelvic masses and ovarian cysts, shedding light on the different kinds of cysts, the signs and symptoms to watch for, and the spectrum of available treatments. Ideal for those affected by ovarian cysts and pelvic masses, their loved ones, and healthcare providers seeking to enhance their understanding, this webinar offers a unique opportunity to gain comprehensive insights into ovarian cysts and pelvic masses. Engage directly with Dr. Danilyants during our interactive Q&A session and arm yourself with knowledge to better navigate this common yet often misunderstood condition.

Natalya E. Danilyants, MD, is board-certified in gynecology. Dr. Danilyants developed and perfected the DualPortGYN® and LAAM® advanced gynecological surgical techniques used to treat complex GYN conditions such as endometriosis and fibroids. Dr. Danilyants has performed thousands of cases, and all s a Hyper-Specialist has extensive training in GYN Oncology procedures and techniques through her work at the Womens Surgery Center and CIGC.
